PROFESSIONAL SUMMARY

Full-Stack Web Developer with practical experience designing end-to-end web architectures, responsive frontends in React.js, and server-side logic in Node.js. Skilled in vanilla CSS3 (Flexbox, Grid, CSS Variables), modern JavaScript (ES6+), and database management, with a strong focus on secure authentication, RESTful APIs, and cross-browser performance optimization. Seeking a Full-Stack Web Developer role to build scalable client-server applications and production-ready web software.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL

Frontend Development: React.js, Modern CSS3 (Flexbox, Grid, Custom Properties, Keyframe Animations), DOM Manipulation, Responsive Design

Backend & APIs: Node.js, RESTful APIs, JSON, Authentication (JWT, Session Management)

Databases & Data Modeling: PostgreSQL, MongoDB, Relational & Document Schema Design

Developer Tools & CI/CD: Git, GitHub, Postman, VS Code, Vercel, GitHub Actions

Core Architectural Concepts: Full-Stack Architecture, CRUD Operations, State Management, UI/UX Design, Web Accessibility (ARIA)

KEY PROJECTS

Full-Stack CRM & Analytics Platform | React.js, Node.js, Modern CSS3, RESTful APIs, Git

- System Architecture:** Architected an end-to-end CRM dashboard with modular React components and backend Node.js APIs for tracking administrative workflows.
- Performance Optimization:** Improved task completion efficiency by 35% and cut page latency by 40% via asynchronous data handling and clean CSS rendering.
- Responsive UI Layout:** Designed modular CSS layouts utilizing Flexbox, CSS Grid, and custom variables to ensure rapid rendering and adaptability across devices.
- Team Collaboration:** Coordinated a 3-member GitHub workflow using feature branches, pull requests, and code reviews.

Full-Stack E-Commerce Web Application | React.js, Node.js, Modern CSS3, PostgreSQL / MongoDB, Vercel

- Core Functionality:** Developed a responsive full-stack store supporting product catalogs, category filtering, cart state persistence, and simulated checkout.
- Backend Data Management:** Handled inventory and order processing on the server using structured REST endpoints and database querying.
- Optimized CSS Architecture:** Implemented a zero-dependency custom CSS architecture for product cards, navigation, and modal drawers, significantly minimizing bundle payload.
- DevOps & Deployment:** Automated continuous integration and deployment pipelines using GitHub Actions and Vercel.

Authentication & Session Management System | JavaScript (ES6+), Node.js, CSS3, HTML5, JWT

- Secure Authentication:** Engineered secure user authentication using password hashing, token validation (JWT), and real-time form verification.
- Accessible Styling:** Styled all input elements, modals, and error states using accessible, semantic HTML5 and vanilla CSS with ARIA compliance.
- Security Middleware:** Built server-side validation middleware to sanitize user inputs and restrict unauthorized route access.

EDUCATION

Bachelor of Technology (B.Tech.) in Computer Science and Engineering

Ambalika Institute of Management and Technology | Lucknow, Uttar Pradesh | Expected Graduation: 2027
